

# P7 Plan

## June 2017

These are the learning intentions and main areas of focus for the remaining few weeks of this session. I have included a calendar of events.

### Literacy & English

- Discuss themes and issues raised in a novel and contribute to a discussion about these
- Make links between issues raised and my own or others' experiences
- Convey my experiences in a way that entertains my reader (P7 memories)
- Present my experiences in an entertaining way, using tone, clear voice and non-verbal tools

### Art & Design

We are learning to:

- Print using different techniques
- Create tribal patterns using different types of lines
- Make repeat patterns using reflection and symmetry
- Measure the proportions of the face
- Use tone to accurately represent faces showing light and dark

### Health and Wellbeing

The main aspect of Health and Wellbeing will be planning for change, working on skills to manage transition to high school.

#### Keeping Myself Safe—a programme of personal safety strategies

- Learn key messages about taking responsibility for your safety
- Understand that children have the right to be protected from physical and sexual abuse and domestic violence
- Know about ways to access help if necessary
- Develop knowledge and safety skills to apply in various situations
- Investigate, reflect on and discuss—in school and at home—appropriate responses to challenging situations

#### Emotional Health

- I understand that I am in charge of my thoughts
- Have strategies for making myself feel better and explain what it means to treat myself and others with respect and compassion

### French

- Revise all basic vocabulary—numbers, colours, weather, pets, calendar, hobbies, classroom objects
- Hold a conversation and talk about yourself
- Practise the 4 areas of listening, talking, reading and writing in French

### Inter-Disciplinary Learning: Assembly

Use creativity and collaboration to plan, write and perform a leavers' assembly.

This will include: Listening and Talking, Writing, Art and Design and Drama

### Maths & Numeracy

- Link and apply my knowledge to solve problems and investigations
- Know and use the standard written method for addition, subtraction, division and multiplication
- Present all working vertically when solving multi-step sums
- Solve algebraic equations

### Diary Dates

- 7th & 8th June: DHS Visits (see letter)
- 16th June: Parent Thank You Tea ; P7 Leavers' Party (organised by parents)
- 19th June: Children's Uni Graduation (info to follow)
- 26th June: Blair Drummond Safari Park trip
- 29th June: P7 Leavers' Assembly (2 adults invited per child)
